

Guidance notes for the Astrophoria Foundation Year Student Support Fund – 2025/26

Please read the following guidance notes carefully before completing an application.

Overview

The purpose of this fund is to support Foundation Year students who commenced their course in the 2025/26 academic year, are currently enrolled, and who may require financial assistance in a variety of circumstances, ranging from a shortfall in their finances to help meeting additional exceptional costs that have arisen after they have started their course.

The Astrophoria Foundation Year is responsible for processing and reviewing applications to the Fund.

The Fund

A non-repayable fund of between £50 and £750 is available. Depending on the level of demand, the award amount may be capped below the maximum to ensure sufficient funding is available to students in need of assistance throughout the academic year.

Eligibility criteria

All current Astrophoria Foundation Year students are eligible to apply for the bursary.

Students will be expected to have accessed all available funding from the Astrophoria Foundation Year before they can be eligible for a Foundation Year Student Support Fund Bursary. The Foundation Year Student Support Fund is designed to assist with one-off unexpected additional costs where other funding is not readily available.

The scheme is intended to offer one-off financial assistance that may be required to meet certain discrete costs or to address smaller funding gaps, it does not represent an extensive review of a student's financial situation.

Foundation Year students remain eligible to apply for Foundation Year Financial Assistance Funding, and will need to do so if their shortfall in finances exceeds the amount available through the Foundation Year Student Support Fund. Students should first discuss their situation with the Foundation Year Welfare Lead.
